A Great Religious Revival
Is Planned for Connellsville.

Plans are being laid by the various ministers for a great evangelistic service to be held in Connellsville commencing Monday evening, November 21, and continuing for three weeks. Rev. E. A. E. Falmquist, Rev. A. J. Ashe, Rev. C. M. Watson, Rev. Cairnes, Rev. B. Frank White, Rev. J. L. Prondit, F. L. Chase, secretary of the Y. M. C. A., J. S. McKee, Worth Kilpatrick and Dr. J. F. Kerr were in Pittsburgh yesterday attending a conference of the evangelistic workers of Pittsburgh and surrounding towns. Dr. Henry Ostrom, head of the simultaneous evangelistic campaign, was present and evangelistic work for the coming winter was discussed at length. Dr. Ostrom with another evangelist and two evangelist singers will have charge of the meetings in Connellsville. Two services will be held each

night, one in the Methodist Episcopal Church, and the other in the First Baptist Church. The following churches are in line for the movement: Trinity Lutheran, the First Baptist, Methodist Episcopal, Methodist Protestant, the United Presbyterian, the Christian, the First Presbyterian and the United Presbyterian. It is likely that the movement will be a county wide one with Connellsville as the headquarters. One of the principal towns for holding meetings is Dawson. The local pastors are earnestly engaged in perfecting plans for the services from all indications Connellsville will witness one of the largest religious gatherings ever held in this section for some time. Dr. Ostrom is a native of Greencastle, Ind., and is one of the most prominent evangelists in the country.

STEEL CAR MEN
ON STRIKE AGAIN.

They All Walked Out This Morning at Schoenville and Plant Is Tied Up.

SAY COMPANY BROKE FAITH

Instead of Firing the Strikebreakers, Many Were Retained as Bosses and Their Discharge Is Demanded. Hopes for Settlement.

United Press Telegram. PITTSBURGH, Sept. 15.—The Pressed Steel Car Company has another strike on its hands and the Schoenville shops are idle once more after the hum of industry had been heard for only a week or more.

Although no trouble is anticipated it is said that preparations are being made to avoid a repetition of the outrages which took place during the bitter strike of the labor difficulties which were settled but recently.

This morning the men laid down their tools and walked out in a body. It all happened because the company, the men claim, broke faith with them. Instead of discharging all the strikebreakers, as it promised to do, many of them have been retained. The bitterness of the men in this instance is caused by the fact that the strikebreakers retained in the company's employ were given places of responsibility and had charge of the strikers who returned to work.

Chairman Wise, who was instrumental in restoring peace in Schoenville, expressed hope that an early settlement would be effected.

ASKS BIG DAMAGES
FOR HER ARREST.

Rebecca Pegg Filed Suit Against Charles E. Wilson for \$5,000.

C. C. GARLETT GETS A JOB

After Being Ousted as Brownsville Justice of the Peace He Is Appointed to Similar Position by Governor Edwin S. Stuart.

UNIONTOWN, Sept. 15.—Rebecca

Pegg of North Union township wants \$5,000 damages from Charles E. Wilson as the result of her arrest on June 2, last on a charge of unlawfully conspiring to secrete property. The plaintiff says that her arrest was unlawful; that she was subjected to deep humiliation and disgrace, and that she was utterly innocent of the charges made against her. She was also unlawfully deprived of her liberty for a time when she appeared before Squire W. H. Cottom of Danbar. She was arrested in connection with a charge of attempting to defraud creditors lodged against Charles and Rebecca Hall, Wilson making the information against her. The suit was filed by Attorney George D. Jeffries this morning.

C. C. Garlett of Brownsville is a justice of the peace now, his commission having arrived at the court house signed by Governor Edwin S. Stuart. Garlett was ousted from office by the Supreme Court when he attempted to hold the court of Justice C. W. Bowman, file clerk deciding against the legality of ousting Bowman because he took a journey to Europe. As Justice J. T. Ross resigned his position, Governor Stuart appointed Garlett to succeed him.

Ed. Agnes has applied for a new trial after being convicted for robbing the home of Bertha Leichter at Hopwood. Attorney L. B. Brownfield says, if given an opportunity, he can prove that the prosecutor went before Squire Jeffries the day after the robbery and said she saw two negroes leave her house, but could not identify either of them. She testified that she recognized Jones when the case was tried and a conviction resulted.

With excitement reigned in the Welsh addition, above the Swagerton road last evening when John Lubeck went on the warpath and attempted to kill his wife. John was angry, and made no effort to conceal or control his wrath. He even went so far as to take three shots at the unfortunate woman, whose frail build won for her the sympathy of the neighbors. After knocking her down, John fired three shots from a .38 calibre revolver. Fortunately for the woman her husband's aim was bad. Constable P. Crossland appeared on the scene

TYPHOID FEVER EPIDEMIC

Dr. McKee, President of Board of Health, Says Only Usual Number of Cases Exist.

Dr. R. S. McKee, President of the Board of Health, this afternoon stated to a reporter for The Courier that typhoid fever in Connellsville is no worse this fall than usual. He said: "I am informed by the Secretary of the Board of Health that there is no more typhoid fever in town than is usual at this time of the year. I have been giving the matter careful attention and at my direction Secretary George B. Brown went over the statistics covering several years past. The number of typhoid cases does not exceed the average in former years." Several cases reported as typhoid the health authorities say are not that disease at all. One at Stony, reported to be down with typhoid, is not suffering from that disease, although he is confined to his home by illness.

But while taking him from the yard the animal became vicious and showed symptoms of having gone mad. He turned on Novak and before he could defend himself the bull had knocked him

Torrid September Weather
Runs Temperature to 87.

In spite of the torrid weather the still hat made its appearance again this morning, custom throughout this section ruling that September 15 is the last day of grace for the hay lid. In Pittsburgh there was a general smashing of straw headgear, but only a little of such tomfoolery permeated the atmosphere of the coke region. The man who braved custom and habit for the sake of comfort and retained his summer bonnet was rather admired than otherwise.

Those who contemplated starting furnace fires a few weeks ago have changed their minds. Just now they are more interested in replenishing the ice chest and storing up a few cool bottles. There was probably more suffering from the heat yesterday and today than any previous time this summer. The mercury soared

Burgess J. L. Evans had a sudden awakening early this morning by a loud and strange sound which permeated the stillness of the night. Garbed in pajamas, and barefooted, he went on a tour of investigation, armed with a revolver as big as an ordinary cannon.

It developed that a water pipe in the bath room had burst. When discovered there was an inch or more water on the floor. This required a nocturnal visit to the cellar to shut off the water. The pantry was flooded, while a pool of water had also found its way into the cellar.

TOO MUCH HARM TO THE TOWNSHIP.

Schools Would Revolt From
the Incorporation of South
Connellsville.

LEAVE BALANCE DEEP IN DEBT

Exemptants Put Up this Argument in
Behalf of Those Opposed to Taking
in a Great Scope of Territory for
Town.

UNIONTOWN, Sept. 15.—The taking of testimony for and against the incorporation of South Connellsville was concluded at 5:30 o'clock this evening. At a later date additional evidence may be submitted by both sides. The hearing was before Judge Van Swearingen.

The first witnesses were E. L. Boyd and George S. Blackstone, for the exemptants. They argued that the incorporation of the town would involve too much territory and that the township and school district would suffer. Of the 11 school rooms in the township 10 would be included in the proposed borough and would therefore draw the greater part of the State appropriation. Too large a proportion of the tax assessment would go into the coffers of the proposed borough, they claimed, and the remainder of the township would be in a financial hole. Their testimony was taken in the morning and the hearing was adjourned until afternoon.

Attorney E. H. Reppert represents the petitioners for incorporation, and E. C. Higbee the exemptants. At 3 o'clock in the afternoon the taking of testimony was resumed. Franklin Pierce, Assessor of the township, was the first witness for the petitioners. He told of the financial conditions of the township and what would be the benefits to the territory comprising the proposed borough, which includes a population of from 1,500 to 2,000 people and about 240 freeholders. He said the roads in South Connellsville were very bad, especially in the winter, and that they could be improved much more rapidly under municipal government than by township supervisors. He said the assessment for roads was too high. That sum applied under borough direction would be sufficient to guarantee good roads throughout the proposed municipality. He was subjected to a rigid cross examination by Mr. Higbee.

James Trombley, a property holder in the town, set forth the advantages he believed would result from incorporation. He said sanitary conditions in the town were bad and that these could be remedied under proper borough supervision. The waste from slabs and bath rooms ran onto the streets and attended as the streets were in a swampy ground, would not flow off. The construction of ditches by the township authorities had not been sufficient to dispose of this filth and he said but few of them had been built. The streets in the winter were almost impassable because of mud. The only fire protection the town has is a claim to one fire plug owned by private interests. Under cross examination he said street paving could be done at a cost not greater than was being paid in taxes into the township. Crowds gathered at the postoffice at Dr. Churchill testified as to the sanitary and general condition, and advocated incorporation, as did Leslie Brown. Other witnesses were C. C. Collins, Leslie Brown and J. F. Weimer, all of whom favored incorporation. The latter proved a tartar under cross examination. He said the police protection was nothing; that crowds gathered at the postoffice at night and that on several occasions he had been compelled to go home without his mail because of the crowded postoffice, where foul and vulgar language was used irrespective of who was present. He had found the roads in bad condition in many instances. When Mr. Higbee asked him about road construction, Weimer said he had been road supervisor for 11 years and knew what it cost to build roads. He said that for the amount paid to the township in taxes the proposed borough could maintain the streets.

"Do you mean to tell me, Mr. Weimer, that you could build better roads than are now maintained in your town at the same appropriation that the township gets?"

"Give us the money we pay the township and we will show you whether we can do it," was the reply. Mr. Weimer said the citizens of South Connellsville paid a big tax and got nothing for it.

Mr. Collins is a member of the board of school directors and said there was no attempt to preserve order in the town. He said it was a regular outlaws' camp. He said that the State appropriation and the same levy as prevail in the township would support the schools embraced in the proposed borough, and would leave a balance of \$5,200. Asked under cross examination whether more than half the assessment this year would revert in the future to the new borough, Mr. Collins admitted that and said the proposed new borough would get about \$3,000 of the \$4,600 State appropriation.

Mr. Reppert announced at the conclusion of the testimony of Mr. Weimer that he thought he had introduced enough evidence, but reserved the right to present more if necessary, which was granted.

Mr. Higbee then called P. Bufano, the Connellsville banker, who said there were but few houses in a great part of the territory proposed to be taken into the borough and cited 15 or 20 acres owned by himself which was unimproved. He claimed no portion of the territory embraced was built up like a town and he thought it would be inadvisable to make a borough out of the site presented on the maps in evidence. He said there were no industries there to justify any such step and he didn't believe the town would grow to any considerable extent and that he felt sure much of the territory involved would never be thickly built up. Mr. Bufano's testimony concluded the day's sitting, court adjourning until 10 o'clock this morning.

From Stronghold of Cubs.
Murphy Unpopular.

Claim Agent T. B. Donnelly, who has just returned from Chicago, says the rooters in that city are pulling strong for the Pirates to win the National league pennant. This seems strange, but Ben says it is true.

"That fellow Murphy is not very well liked in the Windy City," he said this morning. "He is all swelled up over the Cubs and his attitude has cost him lots of friends. The fans there want to see Pittsburgh win."

Mr. Donnelly says the White Sox are ace high with the fans in that city. Coniskey is well liked and everybody is pulling hard for them to climb.

"Old Pomp" was only about 35 years old at the time of his death. He was practically raised in the livery stable in Church place and knew every horse in the Morris string. He was well liked by all who came in contact with him. Only Saturday he was at work as usual about the stable but that was his last day on the job.

Although a steady worker, he had long been in poor health. He always managed to stay on the job until he gave up for the last time Saturday.

THE INCORPORATION OF SOUTH CONNELLSVILLE.

The South Connelville Incorporation
has presented their case to the
Court and we are able to ascertain
their ideas of the advantages of in-
corporation over annexation.

They point the finger of accusation
at the Davidson and Newmyer Addition
to the South Side, which has been
recently annexed to Connelville,
and say that its condition is no better
now than it was when it was still a
part of the township. This statement
may be a literal truth, but it is an
oblique view of the situation. While
there has not been much work yet
done on the South Side, the plan for
material improvements have been
agreed upon. Public improvements
are not made in a day. They move
slowly. In their references and com-
parisons concerning the South Side,
the South Connelville Incorporation
are either untrue or deceitful.

One of the peculiar features of the
testimony of the incorporationists was
its even tenor and effect. A better
drilled bunch of witnesses perhaps
never testified in court. Their story
was a chorus of voices in perfect ac-
cord. Even the little note books, out
of which each witness intoned his
song descriptive of the horrors of
present existence and the heavenly
hopes of bliss unutterable under in-
corporation, were all of one size and
general appearance and they were with-
drawn from the inside pocket, at the
same psychological moment and in
precisely the same manner. The
chorus was perfect if some of the
words were false.

Another feature of the hearing
was the terribly bad name the wit-
nesses gave their own community. If
we are to believe their testimony
Hell's Half Acre is a Paradise com-
pared with South Connelville. This
will be startling news to the citizens
of Connelville, who have generally
been under the impression that they
have been living next to a quiet com-
munity whose citizenship was desir-
able for annexation. If, however, it is
true that there are bad boys out there
who sit around on neighbors' steps
at night, smoke the outlandish
and embarrased cigarette and talk
loudly and in bad language, to the
horror and amazement of the able
bodied but timid men who suffer in
silence rather than risk the ruler
remedy of going out and taking some
of the cubs by the scruff of the neck
and dusting their pants thoroughly in
the right spot, so that they wouldn't
feel like sitting on anybody's steps or
anything else for a week or two.

Inquiry developed the fact that
South Connelville has no constable.
The constable resided in Snyderstown
and was badly annexed to Connelville
borough a few months ago. The
Township Constable is charged with
keeping the peace of the community
and under ordinary conditions can
usually do so. We do not think the
conditions in South Connelville are
extraordinary. South Connelville
has the votes. She should have a res-
ident constable. If she does not have
such an officer it is perhaps the fault
of her own people. If she were a so-
ber borough it is not all likely that
the authorities would feel able to em-
ploy more than one policeman, so that
her new condition with reference to
law and order would not be any better
than it is capable of becoming under
existing conditions of government.

The incorporationists are in the lan-
guage of the late Senator Brutus, "all
honorable men." The Courier impu-
tes to their good faith, however unwise
their belief. They seem imbued with
the idea that incorporation will cure
their foul sanitary and moral condi-
tions at less cost to them than the
cost of township government. A more
vain and preposterous proposition was
perhaps never promulgated.

If the incorporation of South Con-
nelville concerned only this optima-
list band of municipal dreamers it
would be poetic justice to encourage
incorporation and let them repent at
leisure; but the proposition involves
many other innocent citizens who
either do not comprehend what it
means, or have not taken any active
part in the movement, and they should

be protected against it because it
means extravagant local government if
it doesn't mean something worse.

A DIVIDED RESPONSIBILITY.

The Third Ward School should have
convenient approaches. The School
Board has provided the school and it
is the duty of the Town Council to
provide the approaches.

The character of the avenues fur-
nished by the Town Council, must how-
ever, necessarily depend upon the na-
ture of the location which has been
furnished by the School Board.

In this particular case the location
of the school has rendered difficult the
location of convenient streets center-
ing there; and the best efforts of the
Town Council in this direction may
not be wholly satisfactory to the
parents of children; but if this be so,
the parents will have to blame the
school authorities who located the
school building in a comparatively in-
accessible place.

This matter is a divided responsi-
bility, but the responsibility should be
fairly divided.

South Connelville is something of a
convention suburb.

ONE MORE VETERAN DEAD

Al. C. Bell Dies Last Evening—Squire

Farmers Are Pleased.

SCOTSDALE, Sept. 15.—The condition of Bishop J. S. Mills, of the East District of the United Brethren Church, whose serious illness at his home in Annapolis, Md., was announced in The Courier, has shown no signs of improvement, and is considered of great gravity. It is certain that he will not be able to preside over the coming annual conference, and he will be greatly missed by that body over whose deliberations he has in the past been such a capable and well liked presiding officer. One of his brothers-in-law from here, Albert Keister, went to Annapolis on Monday to visit the Bishop, but he has not returned. The Bishop made a trip to Japan and China about a year ago, and was considerably weakened by his journey and exposure, so that when he returned to the United States the calls upon him in the important position he holds in the church were so many and he responded in too active a manner so that he did not regain his accustomed strength. Then a serious form of throat trouble ensued, over which grave apprehensions are felt by his family and a great host of friends all over the United States in fact throughout the world where the United Brethren Church is known.

Squire Wiley Was Injured.
J. W. Wiley, the real estate dealer and coal operator, is going about town with the aid of a crutch made necessary by an accident that he suffered, while playing ball during his summer residence at Ridgeview Park, where the family has a cottage. He was amusing himself with some ball playing, he said last night, when he slipped and wrenched a ligament in his leg, which put him out of commission for five weeks. He just got back to town yesterday.

Al. C. Bell Dead.
Another of the old veterans has passed away, one of the many that have been numbered out here this year. Al. Bell, who died at the home of James Mueser, last evening at 7:20 o'clock, aged 85 years, the cause of death being ascribed to consumption. The deceased was one of the older residents of town, and was a native of Maryland. He served with distinction in the Civil war, being in one of the early Maryland regiments of the Union cause. In Scottsdale he kept a restaurant on Bridge street for a number of years, until taken with his last illness. A son, John Bell, died a few weeks ago, but one member of the family it is said remains.

Were in Connellsville.
Misses Beas and Cecilia Reid and their house guest, Miss Zola Henry of Dawson, were in Connellsville yesterday attending a social affair given here.

Lectured Last Evening.
Rev. Lawson Campbell of Pittsburg delivered a well attended and interesting lecture at the Christian Church last evening. The lecture was one of the best ever given locally.

A Teacher Is Ill.
Miss Tina Mellon one of the teachers in the Pittsburg street schools, is ill this week, and a substitute teacher has taken her place for the time being.

Recruiting Officer Is Here.
A recruiting officer from the United States Navy is here this week seeking men for service in the United States Navy, and his headquarters are at the local postoffice.

Danger Sign Is Up.
At the home works of J. R. Stauffer & Company at Everson, which have been out of blast for several months, a danger sign has been placed over the pit mouth, warning people to keep out. The earth about the mouth of the mine has fallen in and the owners desire that people stay away from it. In fact no one has any business there, but the people directly interested, but they desire direct knowledge that it is dangerous.

Hotel Men Planning Today.
The Hotelkeepers Association of Scottsdale and Everson and their friends are at the Bowser farm, up at the ore mines today, having their annual outing. Quite a large number are there enjoying the day in the country, and yesterday's great heat made it desirable today to get out a cool spot.

Farmers Are Pleased.
The farmers and gardeners are pleased over the hot weather, although they suffer more or less from the excessive heat as well as any one else, but it has been good weather to cure mill and such crops, get the wheat sowed, and for ripening fruit and garden vegetables, that the previous cool weather was keeping back. But it has been a hot time for the mill workers, and several of them played out yesterday in the oppressive heat that fell upon them.

Typhoid Fever Continues.
There are several cases of typhoid fever reported, among them Miss Lida Burkell of town, who has a serious attack. Mrs. Eli Stauffer of East home, and Mrs. Lyman Stoner are also reported to have severe cases of the disease.

SOUL MATE DESERTS EARLE.
Miss Gertrude M. Dunn Leaves Him in France and Goes For America.
New York, Sept. 15.—A dispatch from Paris says that Miss Gertrude Buell Dunn, who was said to have been the latest to fall under the sway of Frederick Pinney Earle's "soul-mate" theory, has sailed from Havre for America and is due to arrive here the latter part of the week. Miss Dunn, it is said, is sailing under an assumed name.

Earle is still in Paris. He and Miss Dunn sailed from this city July 25. Her family denied that there was anything more than a friendship existing between the "soulful wife-beater" and the pretty young writer and artist, and nothing developed in their sojourn to call in question this statement.

SOISSON THEATRE.

"At Cripple Creek." "At Cripple Creek" one of the best plays Hal Reid ever wrote and which has long been a favorite with lovers of melodrama, will appear at the Soisson theatre Thursday, September 23. As gleaned from the title, the piece is laid in the Rockies at the time of the gold discoveries in that section in which there were so many real happenings that make splendid material for the playwright of today.

CASINO THEATRE.

"The Boston Belles." One of the biggest and most talked about novelties with the "Boston Belles" company which comes to the Casino theatre Thursday, September 16 is the Great Everett, known in vaudeville as the Handicapped King, who escapes from shackles of all kinds, a cell, milk cans, and U. S. mail sacks with the utmost ease. This is only one of the many features that are carried with this attraction this season. The two funny burlesques entitled "My Cousin's Arrival at the Seminary" and "One Night in Hotel Shantytown" are full of funny situations and the latest musical numbers. Seats on sale at the Soisson theatre.

START OF PRESIDENT TAFT'S LONG TRIP; SOME OF THE MEN WHO MAKE UP PARTY.

President Taft's party for the first of his 13,000 mile trip consists of Captain Butt, his military aid; Secretary Fred Carpenter and Assistant W. W. Nichols and C. W. Wagner, Dr. J. Richardson of Washington, two secret service operatives and six newspaper men. John Hays Hammond is to join the President at Spokane on September 23 and continue with him throughout the remainder of the journey. Mr. Hammond, who is President of the League of Republics Clubs, has turned the steward and cook of his private yacht over to Mr. Taft to take charge of the culinary department of the President's private car. While El Paso and the Mexican city opposite will furnish the most formal ceremonies of the trip, elaborate programs of entertainment are being formulated in practically every city of the West and South, which the President will visit. The President's private cars, the Mayflower and the Halsemore, will be handled over 22 different railroad systems. The Southern Pacific will get the longest haul—2,250 miles. The Maricopa and Phoenix railroad the shortest haul—36 miles. The voyage down the Mississippi river from St. Louis to New Orleans on the steamboat Mississippi will cover 1,165 miles and occupy four days and five nights. The Cabinet officers who will be with the President at the meeting with President Diaz are the Secretary of State, Mr. Knox; the Secretary of War, Mr. Dickinson; the Postmaster General, Mr. Hitchcock, and the Secretary of Commerce and Labor, Mr. Nagel. The Secretary of the Interior, Mr. Ballinger, is expected to be with the President during the greater part of the time.

TAFT TALKS ON LEGISLATION.

Return of Prosperity Will
Bring Abuses, He
Says.

THE LAW MUST BE OBSERVED

Boston, Sept. 15.—Face to face with almost 2,000 men of Boston William H. Taft stood in Mechanics hall last night at the beginning of a 13,000 mile tour of the country, which will carry him through two-thirds of the

states of the Union and will extend from Boston to Seattle, from St. Louis to New Orleans and El Paso, Tex., back to the capital at Washington. It was the beginning also of a chain of social events in which the leading cities of the United States will engage in friendly rivalry to excel in hospitality extended to the nation's head.

Distinguished guests from national and state political life, from the judiciary of the nation and state, from army and navy and congress and from local church, civil and business circles were present at the chamber of commerce banquet.

President Taft said in part:

"I am on the eve of beginning a journey of 13,000 miles in length, which will enable me to see tens and hundreds of thousands of my fellow citizens and enable them, I hope, to see me. Occasionally I hear a query, 'Why should I start off on such a trip?' and 'What particular good does it do to anybody?' 'Well, it certainly is not going to be a pleasure trip, although I shall

HUDSON-FULTON CELEBRATION NEW YORK CITY

Three hundred years ago, Henry Hudson, an Englishman in command of a Dutch expedition, with eighteen men, explored the Hudson River from Sandy Hook to Troy in his small craft, the "Half Moon."

One hundred and ninety-eight years later, Robert Fulton established, with his steamboat, the "Clermont," a regular water service between New York and the towns along the Hudson river to the North.

This year, New York City, with sister cities and towns along the Hudson, will celebrate these two achievements by a series of imposing observances, religious, historical, military, naval, musical and literary, extending from September 25 to October 9.

Replicas of the "Half Moon" and the "Clermont" have been built and will play a large part in the celebration. They will be the center of attraction in the great naval pageant on Saturday, September 25. The United States Government will have fifty-two warships anchored in the Hudson, and Great Britain, France, the Netherlands, Italy, Germany, Argentina, Guatemala, Mexico and Cuba will be represented by war vessels.

Two great parades of water craft will escort the "Half Moon" and the "Clermont" in triumphal procession past the war leviathans, first in the morning and again in the evening, when all the vessels will be illuminated.

On September 28 there will be a grand historical pageant, and on September 30 a big military parade in New York City.

On October 1, the "Half Moon" and "Clermont" will proceed up the Hudson to Troy escorted by hundreds of river craft, including torpedo boats.

A magnificent carnival parade will be held in New York on Saturday evening, October 2, which promises to eclipse all previous attempts.

The Pennsylvania Railroad, the direct line to New York, with its unsurpassed service of fast express trains, will sell excursion tickets to New York for this period at reduced rates of fare.

Full details concerning specific fares, date of sale, return limits, and train service may be obtained of Ticket Agents.

enjoy it. It will involve much hard work and a great deal of mental effort to think of things to say, and to say them simply and clearly, so that they can be understood. On the other hand, it will certainly give me a very much more accurate impression as to the views of the people in the sections which I visit.

"This is the time when, looking forward to the coming again of congress in December, one must consider the needs of the country so far as they may be relieved by congressional action and attempt to state what that legislation should be.

The Monetary Situation.
"In the first place, there is the monetary situation. While it is probable that the Freedland bill, passed by the last congress, would aid us in case of another financial crisis, it is certain that our banking and monetary system is a patched-up affair which satisfies nobody, and least of all those who are clear-headed and have knowledge of what a financial system should be. The matter has been referred more accurately to the monetary commission, which has been studying with much interest and enthusiasm the financial and banking systems of the great governments of Europe.

"It is quite apparent from the statements of Mr. Freedland who is now the head of the committee on banking and currency in the house of representatives and from the conversations of Mr. Aldrich, who is the chairman of the monetary commission and of the finance committee of the senate, that the trend of minds

\$1,000 Reward in Millman Case.

Detroit, Mich., Sept. 15.—A reward of \$1,000 was offered for information leading to the apprehension and conviction of the person, or persons responsible for the death of Miss Mary Belle Millman of Ann Arbor, whose dismembered body was found last week in Ecorse creek and the lower Detroit river.

PEARY REPEATS HIS CHARGES.

"I Am the Only White Man Who Reached Pole," He Says.

IS READY TO PROVE ASSERTION

Press Tug Reaches Bleak Settlement on Labrador Coast and Correspondent is Welcomed Aboard The Roosevelt.

Battle Harbor, Labrador, Sept. 15.—(via wireless telegraph to Cape Ray, N. F.)—"I am the only white man who has ever reached the north pole, and I am prepared to prove it." This statement was made to a newspaper representative by Commander Robert E. Peary in reply to a question on the Peary-Cook controversy.

The Associated Press tug Douglas Thomas, after a stormy passage the west coast of Newfoundland and through the Strait of Belle Isle from Sydney, finally arrived at this lonely whaling and mission settlement. Captain Bartlett invited the Thomas to lay alongside and the correspondent clambered over the weathered bulwarks and proceeded direct to the cabin to meet the men who had stood upon the apex of the world.

The commander's greeting was cordial. "This is a new record in newspaper enterprise," he said, "and I appreciate the compliment."

Positive in His Assertion.

The correspondent at once began questioning the explorer regarding the merits of Dr. Frederick A. Cook's claim to have reached the pole.

"Was Dr. Cook at the pole?" was the first query, to which the commander replied:

"Cook was not at the pole on April 23, 1908, or at any other time. I make this statement adroitly and at the proper time will back it up with proof."

"Were you surprised, Commander Peary, on returning to Labrador to learn that Dr. Cook had reported reaching the pole, or had anything happened before you returned to cause you to anticipate this event?" was next asked.

"I heard it in New York that Dr. Cook was going to bring the pole back," replied the commander.

"Is it true that you opened letters or documents having reference to this point?"

"No," he responded emphatically. "Did Harry Whitney make any important statements to you about another polar expedition?"

"He made no statement," said Commander Peary. "He is on the relief schooner Jeannette now and is probably shooting bear on the western coast." "What life is there to be found at the north pole? Are there birds, fishes or any animals there?"

"When I was there it was not the season for birds. I do not know if there are fish in the polar seas at that point. There are no animals at the pole."

Will Wait For Cook's Statement.

"I intend to wait until Dr. Cook has issued his full authorized statements. Up to the present time there have been only newspaper accounts of Dr. Cook's alleged polar trip, and these may or may not be accurate. When Dr. Cook has time to issue a complete authorized version of his journey will be the proper opportunity for me to make public the information which I have. After that the jury—in other words, the people and the scientific bodies of the world—will pass judgment on the matter and there will then be nothing left of Dr. Cook's case but his own assertions that he has reached the north pole. In the meantime it is my determination not to deal with debates for the reasons already stated."

Commander Peary spoke feelingly of the death of Professor Marvin of Cornell university, who, at the head of one of the supporting parties, broke through a lead of this ice on the return trip. The body was not recovered and his personal effects were buried in the ice. A cross, bearing his name, his college and the date of his death was erected at Cape Sheridan just above the Roosevelt's winter position and visible for miles. This is seventy-three miles from the point north of Cape Columbia where he was drowned.

The health of the party in general was good, according to the statement of Dr. John Goodsell, the surgeon of the expedition.

BRINGING BACK DOGS

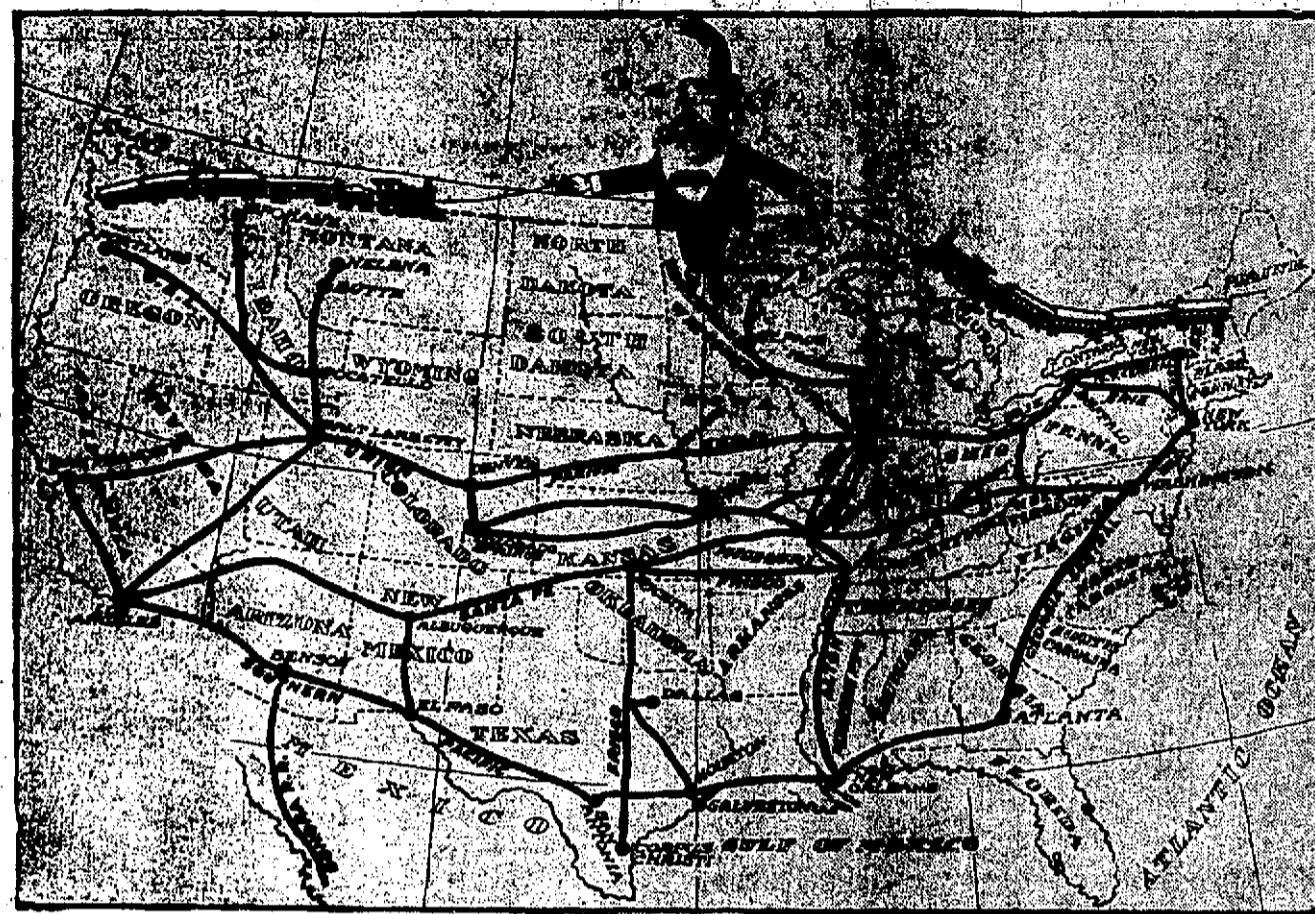

Peary Will Leave For Sydney Either Tomorrow or Friday.

Battle Harbor, Labrador, Sept. 15.—The Roosevelt will proceed to New York as she is, crew, dogs and all complete. She will leave here tomorrow or Friday for Sydney with Captain Peary aboard, going direct to that port without stop.

Commander Peary was offered passage for Sydney on the Associated Press tug Douglas Thomas, but he declined with the explanation that the Roosevelt was absolutely trustworthy and would not require any assistance, nor would he leave her, he added, until he had personally docked her at Sydney.

COOK'S FRIENDS PLEASED

Preponderance of Eskimo Proof in Brooklyn Man's Favor, They Assert.

New York, Sept. 15.—The supporters of Dr. Cook have been quick to seize upon the intelligence that only one Eskimo stood by Commander Peary's side when he raised the American flag at the extreme top of the earth.

The attitude of Cook's supporters here after hearing that Peary had only one Eskimo to confirm his statement regarding the thirty-six hours spent at the pole is expressed by Frederick S. Dellenbaugh, an explorer and officer of the American Geographical society. Mr. Dellenbaugh is quoted as follows:

"It would now seem that the preponderance of Eskimo proof in favor of Dr. Cook. There evidently was no scientific present in either case to verify the observations. Perhaps two Eskimos are better than one (Dr. Cook says two Eskimos were with him at the pole), but I do not know that it makes any great difference."

BRIDGMAN DENIES CHARGE

Says Peary "Saved" Cook's Stores

After They Were Abandoned.

New York, Sept. 15.—The oft-repeated charge that Peary made use of Cook's stores is denied by Herbert L. Bridgman, secretary of the Peary Arctic club. Bridgman's statement, wired from Sydney, N. S., where he is awaiting the arrival of Peary on the Roosevelt, asserts that, instead of appropriating his rival's stores, Peary only "saved" them after they had been abandoned by Franke. Mr. Bridgman says that Franke was picked up by Peary's men at North Star bay, between Cape York and Etah, while he was trying to return to civilization from the post where Cook had left him. Franke, says Mr. Bridgman, said that he was physically unfit to remain longer in the extreme north and after Peary's surgeon had confirmed this statement Franke was given money by Peary to take him home.

ADVANCE IN WINDOW GLASS

This Step Decided Upon at a Meeting at Columbus, O.

Columbus, O., Sept. 15.—An immediate advance in the price of all grades and sizes of window glass was decided upon at a meeting of representatives of 1,500 panes in Ohio, Indiana, Pennsylvania, West Virginia and other states.

Details of the organization of the Imperial Window Glass company, a corporation representing practically all the independents in the country are to be worked out soon, it is announced. It was thought this organization had been completed some months ago but the independents say that the consolidation is to be effected along new lines.

"CANNONISM IS DESPOTISM"

W. J. Bryan So Declares to Texas Audience.

Dallas, Tex., Sept. 15.—Denouncing as an embodiment of power the man who would violate a party pledge ratified by the voters of his party, William J. Bryan outlined his views on the tariff before a large audience in Bush Temple.

"Cannonism," Mr. Bryan described as despotism, and the speaker suggested an amendment to the rules of the house of representatives to correct what he considered faults.

While not denying a candidate the right to repudiate a part of his platform, such repudiation, he asserted, should come before the election.

CHILD MURDERER

STILL AT LARGE.

No Trace of Man Who Committed Crime at Utica.

BIG REWARDS ARE OFFERED

Police Think Parents of Children Know More About the Case Than They Are Willing to Admit—Little Girl's Lips Are Sealed.

Utica, N. Y., Sept. 15.—The police have run down every possible clue without result in their effort to find the murderer of little Theresa Procopio and Freddy Infante and they are no nearer a solution than they were when the crime was discovered.

Scores of suspects have been arrested only to be released after examinations. Innumerable theories as to the motive have been advanced, but none of them seem to take definite form. Rewards aggregating \$3,250 have been offered for information which will lead to the arrest and conviction of the murderer and every police officer in the city is on the alert.

The attitude of little Fannie Infante, who insists that she does not know the name of the man who hired her and the two dead children from their homes, together with the statement of Mrs. Gray, who first discovered the crime, that the Infante child told her the name of the man, strengthens the belief that the parents know more about the crime than they have admitted to the police.

Before the authorities arrived, Mrs. Gray says, the child told her the name of the man, saying that she knew him well. It was an Italian name, she says, but she is unable to remember it. A few moments later the child's father arrived and talked excitedly with the child in Italian and from that time on the child has steadily maintained that she does not know the man and gives only a vague description of him.

A prominent Utica Italian, when asked if the rewards would be an inducement for Italians who have information regarding the crime to divulge it, said he was sure it would not. They would be afraid of personal vengeance, he said.

VESSEL TOO SPEEDY.

Replica of Fulton's Ship Travels Six Miles an Hour.

New York, Sept. 15.—With plain cordwood as fuel, the well-sided, acow-shaped, stovepipe-funnelled craft in which Robert Fulton first navigated the waters of the Hudson river under steam propulsion, 102 years ago, came to life again when the reconstructed Clermont, built for the Hudson-Fulton celebration, had her official speed trial from Martine's harbor, Staton Island, to Robbins Reef light in the lower bay.

The distance traveled was six miles and the elapsed time one hour and four minutes, which means that if historical accuracy is to be preserved the skipper of today's Clermont will have to reduce the inordinate speed of his vessel by nearly a mile an hour, for the best record of the Clermont of 1807 was five miles an hour.

YOUNG ROGERS A DIRECTOR

Elected in Harriman's Place on New York Bank's Board.

New York, Sept. 15.—J. P. Morgan, Jr., was elected to the late E. H. Harriman's place on the board of directors of the National City bank. By Wall street the election is regarded as one of the most significant of the week's financial developments, presumably indicating that harmonious relations exist between the Morgan and Kuhn-Loeb-Standard Oil groups of financiers.

Added weight was given the event because it followed so closely upon the recent reports that the Morgan interests were about to take an active interest in the government of the Harriman roads and that the younger Morgan was slated as the ultimate successor of Mr. Harriman in the command of the Union and Southern Pacific systems.

Harriman's Will Not Filed Yet.

New York, Sept. 15.—The will of E. H. Harriman will be filed this week, according to Robert S. Lovett, who has been elected chairman of the Union Pacific executive committee to succeed Mr. Harriman in the administration of the vast Harriman railroad interests.

OPENS HEADQUARTERS

Jerome Starts His Campaign in New York.

New York, Sept. 15.—Fall campaigning took on a business-like look when it was announced that William Travers Jerome had put the finishing touches on his headquarters from which he will fight for the district attorneyship of New York for the third time. He will run as an independent.

With a corps of stenographers and notaries, the headquarters at Forty-second street and Sixth avenue was thrown open today.

Chicago Grain Market.

Chicago, Sept. 14.—Fear of a crop shortage in Argentina, which caused a sharp advance in prices yesterday, was again a dominating factor in the wheat market here today. As on the preceding session prices made material gains but the market failed to retain the advance owing to profits taking and closed 1/4¢ lower to 3/4¢ higher, compared with the previous final figures. Corn and oats closed steady and provisions easy. September options closed: Wheat, \$1.02 1/4; corn, 67¢; oats, 38 1/2¢.
